

Education from Infancy: Part 1 - An Early Start (Paperback)

By Kerman Bharucha

Kerman Bharucha, United States, 2017. Paperback. Condition: New. Language: English. Brand new Book. "Education from Infancy: Part 1 - an Early Start" is an extract out of "Education from Infancy: All 4 Parts." "Education from Infancy Part 1 - an Early Start" describes my very successful efforts at teaching Math and literacy to my grandson from the very earliest days of his infancy. For example, by the time he was 6-7 months old I had taught him to recognize and point out to me: - upper-case letters of the alphabet; - the basic numbers 0 through 9 in normal and upside-down perspectives from his point-of-view. This book is for: - new parents, grandparents or other caretakers who want to give their infant child a huge jump-start on his or her education; - the parents of the child that needs a helping hand with an understanding of numbers in general or with addition and subtraction concepts. Part 1 ends with your child learning how to: - verbalize and write out numbers up to 36 digits long; - perform real-world addition and subtraction. This book will get your child to understand Math, and therefore enjoy it. "Education from Infancy: All 4 Parts"...
